

Did you know that only 1/10 houses in the Central African Republic (CAR) has electricity? Did you know that only 1/7 houses have Internet? Armed conflict has led to a humanitarian crisis.

This year for #GivingTuesday, the Tuesday after Thanksgiving, we are raising funds for our friends in the CAR. Our goal is \$3,500 to help people with food, health care, education, and humanitarian assistance. The Lutheran Church of CAR operates village schools in locations where there are no government schools. They have clinics that provide maternity and wound care, training in hygiene, and treatment for common diseases. The church distributes food, sleeping mats, and other items to the many internally displaced refugees, who flee rebel movements in the country. The funds will support these programs that serve all people in need.

Give online at <https://gulfcoastsynod.org/give/> or by check to the Gulf Coast Synod, 7822 Northline Drive, Houston, TX 77037. Please invite your friends!
